# Explore Weather Trends

## REVIEW

## HISTORY

### Meets Specifications

Congrats on completing your first project. 🏆

### Analysis

- The SQL query used to extract the data is included.
- The query runs without error and pulls the intended data.

Great job with the SQL queries!

Moving averages are calculated to be used in the line chart.

Impressive work with the calculation of moving average

- A line chart is included in the submission.
- The chart and its axes have titles, and there's a clear legend (if applicable).

The charts are clear and correctly labelled, well done!

- The student includes four observations about their provided data visualization.
- The four observations are accurate.

Well done for adding observations that you drew from the visualization in your conclusion!
